¹ Under Listing Rule 4.7.3, an entity must lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of rule 4.10.3.

² "Corporate governance statement" is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

³ Mark whichever option is correct and then complete the page number(s) of the annual report, or the URL of the web page, where the entity's corporate governance statement can be found. You can, if you wish, delete the option which is not applicable.

Throughout this form, where you are given two or more options to select, you can, if you wish, delete any option which is not applicable and just retain the option that is applicable. If you select an option that includes "OR" at the end of the selection and you delete the other options, you can also, if you wish, delete the "OR" at the end of the selection.

Corporate Governance Documents including the Corporate Governance Statement, Annual Report, Board Charter, Audit Committee Charter, and Remuneration and Nomination Committee Charter, Risk Management Policy, Communications Policy, Diversity Policy, Code of Conduct Policy and Ethics Policy are available and can be found at http://www.dgogold.com.au/investorcentre_corporategovernance.html/investorcentre_corporategovernance.html

Principle 1 – Lay solid foundations for management and oversight

Role of the Board

The Board Charter clearly defines the respective roles and responsibilities of the Board and establishes functions that are reserved to the Board and functions delegated to senior executives. The responsibilities for the operation and administration of the Company have been delegated by the Board to the Chairman and the executive management team.

A copy of the Board Charter is publicly available and can be found in the Investors Centre within the Company's website at www.dgogold.com.au/investorcentre_corporategovernance.html/investorcentre_corporategovernance.html

Responsibility of the Board

The Board has a number of responsibilities including input into the development of the Company's corporate strategy, understanding and monitoring the budget, and identifying areas of material business risk and ensuring arrangements are in place to adequately manage those risks. The Company has established functions reserved to the Board and matters delegated to senior executives.

Even though the Board is responsible for guiding and monitoring the Group, the Audit Committee, and Remuneration and Nomination Committee provide focus on particular areas of responsibility and report to the Board. Overall risk management roles and responsibilities have been identified in the Risk Management Policy which is publicly available on the Company's website. The Company Secretary is accountable directly to the Board, through the Chairman, on all matters to do with the proper functioning of the board.

New Directors and Senior Executive

The Company undertakes the necessary background checks before appointing a person or before putting forward to shareholders, a candidate for election as a director. Shareholders are provided with material information regarding each appointed director including an explanatory memorandum to the Notice of Meeting, the ASX announcement detailing the appointment, information within the Annual Report and details contained on the Company's website.

Appointment of directors and senior executives

Each director and senior executive are provided with a formal letter of appointment that sets out the terms and conditions of their appointment, any special duties attaching to their position, details of their duties, functions and responsibilities, company policies on dealing with conflicts of interest, trading securities, access to professional advice and relevant company records. The Company Secretary also provides directors' and senior executives' access to information on corporate governance issues.

Each director and senior executive has a written agreement setting out their terms of appointment. The directors and senior executives are required to adhere to the Code of Conduct Policy and Ethics Policy which have been made publicly available on the Company's web site. All existing directors are required to provide the Company Secretary with the information required to be disclosed in relation to the trading of securities.

Independent Professional Advice and Access to Company Information

Any Director of the Company is entitled to access independent legal, financial or other advice as they consider necessary at the reasonable expense of the Company or any matter connected with the discharge of responsibilities. Where appropriate a copy of this advice is to be made available to all other members of the Board. The engagement of an outside adviser by individual director is subject to the prior approval of the Board, which will not be unreasonably withheld.

Re-election by Shareholders

The directors are subject to election and re-election by shareholders as prescribed by the Company's constitution. The Constitution provides that one-third of the directors apart from the Executive Chairman retire by rotation at each Annual General Meeting. Those directors who are retiring may submit themselves for re-election by shareholders, including any director appointed to fill a casual vacancy or recruited since the date of the last Annual General Meeting.

Diversity Policy

The Company had adopted a Diversity Policy and is committed to developing diversity in its workplace to assist the Company to meet its goals and objectives by providing an environment whereby appointments, advancement and opportunities are considered on a fair and equitable basis. The Company is committed to promoting a corporate culture which embraces diversity when determining the composition of the Board, senior management and employees and considered during its recruitment and selection process.

Due to the current size and scale of operations of the Company, the Board has determined that it is not relevant at this point in time to set measurable objectives for achieving gender diversity and to assess annually both the objectives and the Company's progress to achieving them. The Board is committed to gender equality and plans to improve on the overall company-wide rate as soon as the Company is of the size and nature to enable this to happen. As such, the Company does not comply with the recommendation to assess the measurable objectives for achieving gender diversity and for the Board to assess annually both the objectives and progress in achieving them.

The Company ensures that recruitment and selection decisions are based on the principle of merit, skills and qualifications and regardless of age, gender, nationality, cultural background or any other factor not relevant to the position. Past skills and experience in the mining and exploration industries will be a key determinant in the selection process. The Diversity Policy is publicly available in the Corporate Governance section of Company's website at www.dgogold.com.au/investorcentre_corporategovernance.html/investorcentre_corporategovernance.html

The percentage of women in the organisation as a whole organisation, senior management, and the Board at the end of the financial year was as follows:-

Board Nil

Whole organisation 33%

Senior management 40%

Overall organisation 33%

Senior management positions for these purposes are the roles of the Executive Chairman, Chief Financial Officer, Company Secretary and General Manager.

Performance Criteria

Each year the Remuneration and Nomination Committee reviews the performance of the Board, Committees, Executive Chairman, Directors, Company Secretary and Chief Financial Officer against a formalised set of qualitative performance criteria.

The Remuneration and Nomination Committee reports its findings from the performance evaluation to the Board. The Company's performance is reported in the Remuneration Report section contained in the Directors' Report in the Annual Report.

Principle 2 – Structure the Board to add value

Remuneration and Nomination Committee

The Company has formed a combined Remuneration and Nomination Committee to assess the skills, performance and remuneration of existing directors, Board performance. There is a set criteria for the appointment and removal of directors.

The Remuneration and Nomination Committee is chaired by Mr Ross Hutton and consists of three other members being Mr Eduard Eshuys, Mr Michael Ilett and Mr Bruce Parncutt AO. Due to the current size, nature of the Company's operations and Board consisting of only four directors, the Remuneration and Nomination Committee does not consist of a majority of independent directors but is chaired by an independent director. The number of times the Remuneration and Nomination Committee met throughout the period and the individual attendances of the members at those meetings are disclosed in the Directors' Report contained in the Annual Report.

Succession Issues

The Board must ensure that any candidate applying to be a Director has the appropriate range of skills, expertise and experience that will complement the skills and experience of other directors on the Board. The Company recognises the important role that Non-Executive Directors provide in adding value to the Board. Any director's appointment requires the Board to consider a mix of skills including diversity, leadership, technical expertise, corporate and governance experience, interpersonal communication, management skills, exploration and mining experience, reputation, qualifications, specific requirements of the Company at the time and the additional skills that could be added by the individual to the Board. The appointment procedures are outlined in the Diversity Policy and Remuneration and Nomination Committee Charter which are on the Company's website at www.dgogold.com.au/investorcentre_corporategovernance.html.

Skills of the Board

The names and particulars of each of the directors including their skills, experience and expertise relevant to the position of director the term of office held by each Director are set out in the Directors' Report section of the Company's Annual Report.

Outlined below is the Board's skill matrix setting out the mix of skills and diversity of the members of the Board at the time of this report:-

Independence

The directors are considered to be independent when they are independent of management and free from any business or relationship that could interfere with or reasonably interfere with their independent judgement.

In the context of director independence, "Materiality" is considered from both the consolidated entity and individual director perspective. The determination of materiality requires consideration of both quantitative and qualitative elements. It is considered to be material (unless there is qualitative evidence to the contrary) if it is equal to or greater than 5% of the appropriate base amount. Qualitative factors considered in determining "Materiality" include previous employment by the Company, shares held in the Company and any previous contractual and other relationships that the director has held with the Company.

In accordance with the concept of independence outlined above, the Board has considered the independence of directors as follows:

Name of Director	Position	Independent/Non Independent	Date of Appointment
Mr. E. Eshuys	Executive Chairman	Not independent as employed in executive capacity by the Company and a substantial shareholder of the Company.	15 July 2010
Mr. R. Hutton	Non-Executive director	Independent	5 April 2007
Mr. M. Ilett	Non-Executive Director	Not independent for the last financial year 2017/2018, as contracted in an executive capacity. However, he is no longer engaged in an executive capacity.	20 July 2015
Mr. B. Parncutt AO	Non-Executive director	Not independent as is a substantial shareholder of the Company.	23 May 2018

The term of office held by each Director at the date of this Annual Report is set out in the Directors' Report section of the Annual Report as well as directors' attendance at Board Meetings.

Mr. R. Hutton is the Company's only independent director. The Board consists of one executive director and three non-executive directors. The Board does not believe that it is warranted to have a majority of independent directors due to the Company's size, executive structure and the nature of the Company's activities.

Mr. E. Eshuys, as the Executive Chairman, is not considered to be an independent director as he acts in the role as the Chief Executive Officer. The Board believes that Mr. E. Eshuys is the most appropriate person to lead the Board and recognises his current and past leadership and exploration experience. Due to the size of the Company, its operations and the focus on the development of its mining and exploration tenements and investment in other exploration companies the Board does not believe that it is warranted for the Chairman to be an independent director and the roles of the Chairman and Chief Executive Officer to be exercised by two different individuals.

Board and Committee Evaluation

The Company has developed a formal board evaluation, committee and director's performance evaluation process. The performance evaluation of the Board, its committees and directors takes place in accordance with this process. During the performance evaluation process, the Board completes an extensive Board evaluation questionnaire and provides feedback on individual director and Board performance. The results of the evaluations are provided to the Remuneration and Nomination Committee and the Board for consideration.

The Remuneration and Nomination Committee evaluates its own performance from time to time. The Committee Charter provides details of the process for determining the composition of the Board, re-election of existing directors and the appointment of new candidates for directors.

Induction and Professional Development

New directors undergo an induction process in which they will be given a full briefing on the Company and its operations. The directors are provided with appropriate professional development to allow them to maintain the skills and knowledge necessary to perform their function.

Principle 3 – Act ethically and responsibly

Code of Conduct and Ethics Policy

The Company endeavours to foster a culture requiring that the directors and officers act with the utmost integrity, objectivity and in compliance with the spirit of the law and Company policies.

The Code of Conduct and Ethics Policy provides practices necessary to maintain confidence in the Company's integrity practices necessary to take into account legal obligations and reasonable expectations of stakeholders and outlines the responsibility and accountability of individuals for reporting and investigating reports of unethical practices.

The Code of Conduct and Ethics Policy also outlines the policy concerning trading in its securities by directors, senior executives and other employees. The Company effectively monitors compliance with the share trading policy. Directors, officers, senior executives and certain employees are required to advise the Chairman of their intentions prior to undertaking any transaction in the Company's securities. If a Director, officer, senior executive and employee is considered to hold material non-public information, they will be precluded from making a security transaction until that information has become publicly available. The trading policy also precludes Directors and Senior Management from trading in the Company's securities during the period from the end of the reporting period until the next day after the release of the financial results.

Details of the policy concerning the trading of securities, terms of code of conduct and ethics can be found in the Code of Conduct Policy and Ethics Policy which is publicly available in the Corporate Governance section of Company's website at www.dgogold.com.au/investorcentre_corporategovernance.html.

Principle 4 – Safeguard integrity in corporate reporting

Audit Committee

The Company has established an Audit Committee which operates under a Charter approved by the Board. The Audit Committee comprises of three Non-Executive Directors being Mr. R. Hutton (Chairman of the Audit Committee), Mr. B. Parncutt AO and Mr. M. Ilett. The Executive Chairman and Chief Financial Officer are also invited to attend Audit Committee meetings.

Mr. R. Hutton is an independent director. Mr. B. Parncutt AO and Mr. M. Ilett are not considered to be independent directors. Details of the qualifications of those appointed to the Audit Committee, their attendance at Audit Committee meetings and the number of meetings of the Audit Committee are contained in the Directors' Report.

The membership of the audit committee is a departure from Recommendation 4.1 that requires that the Audit Committee consist of three members, all of whom are Non-Executive Directors and a majority of whom are independent directors and be chaired by an independent director who is not the chair of the Board. The Chairman of the Audit Committee is an independent director. However, due to the size, structure and nature of the Company and its operations, the Board consider that it is not necessary to have three Non-Executive Directors with a majority of independent directors on the Audit Committee.

The Audit Committee through its own investigations and in consultation with its external auditor ensures that the Company has met the ASX guidelines regarding the selection, appointment of the external auditor and the rotation of external audit engagement partners. Details of the procedures for the engagement of the external auditor can be found

in the Code of Conduct and Ethics Policy. The Audit Committee Charter is publicly available on the Company's website at www.dgogold.com.au/investorcentre_corporategovernance.html .

Attestations by Chief Financial Officer and Executive Chairman

The Board should not sign off on the Company's financial statement for a financial period until it has received from its Executive Chairman (CEO) and Chief Financial Officer a declaration that, in their opinion, the financial records of the entity have been properly maintained, the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been based on a sound system of risk management and internal control which is operating effectively.

Auditors' attendance at the Annual General Meeting

The external auditors are required to attend the Annual General Meeting to answer questions from its members relevant to the audit.

Principle 5 – Make timely and balanced disclosure

The Board is committed to the promotion of investor confidence by ensuring that trading in the Company's securities is undertaken in an efficient, competitive and informed market. There are written policies and procedures in place to ensure compliance with ASX listing rule disclosure requirements and accountability at a senior executive level for that compliance. The directors and senior management are made aware of their disclosure requirements and obligations. The continuous disclosure policy can be found in the Code of Conduct Policy and Ethics Policy which is publicly available on the Company's website at www.dgogold.com.au/investorcentre_corporategovernance.html .

Principle 6 – Respect the rights of shareholders

The Company has a Communications Policy for promoting effective communication with shareholders and encouraging shareholder participation at general meetings of shareholders.

Investor Relations Program

The Company has an investor relations program designed to facilitate effective two-way communications with investors. The Company is currently updating its website to include information regarding the Company's strategic focus on exploration of gold deposits in Australia and direct investments in other gold exploration companies.

Shareholder Communications Policy

The Company believes that the promotion of effective communication with its shareholders at all times is integral to ensuring the Company respects the rights of its shareholders.

DGO Gold Limited is committed to:-

- Communicating effectively with its shareholders and ensuring that it is easy for shareholders to communicate with the Company;
- Complying with its continuous disclosure obligations applicable to the ASX listing rules and other regulators; and
- Ensuring that the shareholders and other stakeholders are provided with timely and full information about the Company's activities.

To promote effective communications with shareholders and to encourage participation by shareholders, the Company ensures that information is communicated to its shareholders through:

- Being available to answer any particular queries;
- Posting information on the web site at www.dgogold.com.au/investorcentre_corporategovernance.html
- The distribution of Notice of Meetings and other information directly to shareholders through the post and other forms of communications;
- Ensuring that auditor is invited to the Annual General Meeting to consider questions regarding the conduct of the audit and the preparation and content of the auditor report;
- Making presentations from time to time at shareholder meetings;
- Providing a review of operations in the Directors' Report;
- Allowing shareholders the opportunity at meetings to discuss resolutions;
- Providing shareholder updates and quarterly reports; and
- Ensuring timely release of information to the market through the ASX.

The shareholder communication policy is designed to ensure equal and timely access to information for shareholders.

Principle 7 – Recognise and manage risk

Risk

The Board has not established a separate committee to oversee risk due to the size and nature of the Company.

The Company has established policies for the oversight of material business risks and believes that risk management and recognition is integral to the Company meeting its objectives. The Board is responsible for reviewing the Company's policy on risk management and risk oversight. The Audit Committee also separately assesses management of the Company's risks and makes recommendations to the Board. Given that there are only four directors on the Board and the due to the size and nature of the Company activities, the Company does not see it necessary to establish a separate Committee to oversee risk with at least three directors with a majority being independent directors and chaired by an independent director.

However, the Board Charter contains details pertaining to risk management. The attendance and the number of Board and Audit Committee Meetings held during the year are detailed in the Directors' Report section of the Annual Report.

The Company has designed and implemented a risk management and internal control system to manage the Company's material business risks and report to it on whether the risks are being effectively managed. The Company has reviewed its risk management procedures. The Company continues to review its existing risk management procedures, the material business risks affecting the Company and where necessary delegated further responsibilities for those material business risks to senior staff members. The risk management system has been designed to effectively manage and report on the consolidated entity's material business risks.

The Company has developed risk management procedures and undertakes reviews and updates of its Risk Register, which forms the basis of the Company's risk management and internal control system. The Audit Committee considers internal control issues during its discussions with the auditor and its review of the financial statements.

The Risk Register has identified risk in the broad categories of operations management, asset management, environment, compliance/financial reporting, strategic management, ethical conduct, reputation, occupational health and safety/human resources, IT/technology, finance/business continuity, tenements/resource statements and stakeholder communications. The Company's material business risks have been identified. The risk register is updated by the Board from as required.

The Company has a number of mechanisms in place to ensure that the Board considers matters relating to risks and the Board considers and manages its material business risks throughout the year. The Board reviews the Company's Risk Register regularly to ensure that it is sound and during the 2017/2018 financial year a review has taken place.

Internal Management Controls

The executive Chairman under the supervision of the Board exercises control over all aspects of the Company's activities including the internal controls. The Chairman is responsible for all the technical activities of the Company including all exploration and mining programs and projects, acquisitions of new projects disposal of projects and the administrative activities of the Company. The Board also monitors the performance of outside consultants engaged from time to time to complete specific projects and tasks.

The Company is in the business of acquiring and developing mineral tenements and undertakes direct investment in other exploration companies. It is exposed to the same number of risks commonly associated with exploration companies. The Company holds gold tenements and has its main focus on exploration tenements in sediment hosted gold deposits. The Board has identified three material economic risks facing the Company and no environmental, social sustainability risks as outlined below:-

1. Exploration and evaluation risk

Once the tenements are granted there is a risk that the Company is unable to discover significant mineral resources. The ability of the Company to make an economic return on its tenements is dependent upon many factors including the ability to finance exploration costs, the conversion of resources to reserves and compliance with regulatory, statutory, environmental and indigenous heritage obligations. The exploration success of the Company is dependent on the judgement and experience of its Board, management and consultants.

2. External Risks

There are many external risks beyond the control of the Company that may affect the ability of the Company to explore and develop its tenements. These factors include land access, commodity prices, the ability to attract project partners and capital as well as changes to government and environmental regulatory requirements. These external risks may affect the timing and amount of future funding that the Company can attract to support its exploration and development activities.

3. Corporate Social Responsibility Risks

The Company is committed to ethical conduct and recognizes its corporate social responsibility (CSR) obligations when dealing with its various stakeholders. Amongst its CSR obligations the Company has identified material risks associated with the environment, cultural heritage and occupational health and safety.

The Company's activities are expected to have some impact on the environment. The Company conducts its activities in an environmentally responsible manner and in accordance with applicable laws thereby limiting its environmental impact. Environmental regulations and requirements may evolve in a manner that will require stricter standards and more stringent assessments of projects. The costs of complying with the applicable environmental obligations may adversely impact the Company's exploration and development activities.

The Company is subject to the *Native Title Act 1993* (Cth) which recognizes and protects the rights and interests in Australia of Aboriginal and Torres Strait Islander people. The Company intends to comply with Aboriginal heritage legislation requirements and access agreements which may require heritage survey work to be undertaken ahead of the commencement of various activities. The Directors will closely monitor the potential effect of native title claims involving tenements in which the Company has or may have an interest. It is possible that Aboriginal sacred sites found within the tenements held by the Company may preclude exploration activities and the Company may also experience delays with respect to obtaining permission from the traditional owners to explore.

The Company has an obligation to ensure the occupational health and safety of its employees when travelling to and from its tenements and for its stakeholders visiting the tenements on Company business during exploration. The Company will ensure that the proper safety systems are maintained during the exploration program to reduce the likelihood of accidents.

Principle 8 – Remunerate fairly and responsibly

The Company has established a Remuneration and Nomination Committee. This committee considers the procedures, policies and key performance indicators used to measure the performance of key executives and directors. Equity based executive and director's remuneration packages have been proposed for shareholder approval. The Remuneration and Nomination Committee makes recommendations to the Board on performance and remuneration and it is the Board who is ultimately responsible for reviewing compensation agreements for the directors and the executive management.

Full discussion of the Company's remunerations philosophy and framework and remuneration received by directors and executives and structure in the current financial year is contained in the Remuneration Report section of the Directors' Report. Directors' fees reflect the demands that are made on and the responsibilities of the Non-Executive Directors and are reviewed annually. There is no scheme to provide retirement benefits to Non-Executive Directors, except for their entitlement to the 9.5 % Superannuation Guarantee. Each member of the executive team that has been employed directly has signed a formal employment contract at the time of their appointment covering matters including the rights, responsibilities and entitlements on termination. The Remuneration and Nomination Committee considers companies of similar size and nature when it reviews the salaries paid to directors, Non-Executive Directors and senior executives.

The Company has an equity based performance rights remuneration scheme which has been put to shareholders for their approval. The participants in the performance rights scheme are not permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme.

Further details of the structure of the remuneration procedures can be found in the Remuneration and Nomination Committee Charter. Further details regarding the remuneration of directors, Non-Executive Directors and senior executives can be found in the Remuneration Report found in the Annual Report.

Due to size, and nature of the Company, the Remuneration and Nomination Committee does not consist of a majority of independent directors and has four members including the Chairman of the Company. The Committee is chaired by a non-executive director who is an independent director. The Chairman of the Board is not the Chairman of the Remuneration and Nomination Committee.

The members of the Remuneration and Nomination Committee are Mr. R. Hutton (chairman), Mr. E. Eshuys, Mr M Ilett, and Mr. B. Parncutt AO.

Details of the qualifications of the members of the Remuneration and Nomination Committee, number of meetings held during the year and the attendees at those meetings are found in the Directors' Report. A copy of the Remuneration and Nomination Committee Charter can be found in the corporate governance section at the Company's website at www.dgogold.com.au/investorcentre_corporategovernance.html.
